

VEHICLE INFORMATION

Year	2008	Odometer	149,830 miles
Make	SUBARU	VIN	4S4BP86C284304726
Model	OUTBACK		

EMISSIONS

READY for emissions test (Pennsylvania)

No action required

A green light indicates that all engine systems are running normally, and all emission monitors are active and performing their diagnostic testing.

SERVICE CHECKS

Battery Voltage 14.29 V

Tire Pressure

- 0 psi
- 0 psi
- 0 psi
- 0 psi

ENGINE CODES (OBD2)

No Codes

There were no Diagnostic Trouble Codes found in the Engine Control Module.

BRAKES (ABS)

3 Codes

Codes With Fixes

C0045 (N/A)
TCM Malfunction

Most Likely Fix

Check For DTCs in other modules first

C0071 (N/A)
Steering Angle Sensor Malfunction

Most Likely Fix

Replace and Relearn Steering Angle Sensor
Steering Angle Sensor

Qty: 1

Codes Without Fixes

C0052 (N/A)
Motor And Motor Relay OFF Failure

AIRBAGS (SRS)

1 Codes

Codes Without Fixes

26 (History)
Passenger's Airbag Indicator Failure

OTHER SYSTEMS - 4 Modules Scanned

17 Codes

Keyless Access & Push Start

B2107 (N/A)
IGN Fuse Blown Or IGN Circuit Abnormal

B2100 (N/A)
Push Start SW Signal Abnormal

B2110 (N/A)
Key Collation Abnormal

Tire Pressure Monitoring System

53	(N/A)
RR Transmit Battery Low Voltage	
52	(N/A)
FR Transmit Battery Low Voltage	
22	(N/A)
No FR Transmitter Data	
51	(N/A)
FL Transmit Battery Low Voltage	
24	(N/A)
No RL Transmitter Data	
11	(N/A)
FL Air Pressure Decrease	
23	(N/A)
No RR Transmitter Data	
14	(N/A)
RL Air Pressure Decrease	
21	(N/A)
No FL Transmitter Data	
13	(N/A)
RR Air Pressure Decrease	
12	(N/A)
FR Air Pressure Decrease	
33	(N/A)
RR Transmit Pres Data Abnormal	
61	(N/A)
Vehicle Speed Is Abnormal	
43	(N/A)
RR Trans Function Code Abnormal	

Scanned Systems With No DTC Found

These systems were scanned, but no Diagnostic Trouble Codes were found:

Engine	Transmission
--------	--------------

Systems With No Response

Your vehicle may not be equipped with these modules, or there is an issue communicating with them

Body Integrated Module	Electric Power Steering
Keyless unit mode	Occupant Detection System

SCHEDULED MAINTENANCE

 **CURRENT MILEAGE: 149,830 MILES**

Estimated Cost: \$1378.58

Based on our data, the following maintenance is due for your vehicle at 150,000 miles:
(To see updated Scheduled Maintenance, visit the Vehicle Care section in the app.)

Wear Items

- Change Brake Fluid
Brake Fluid Qty: 2
- Change Engine Coolant
Engine Coolant / Antifreeze Qty: 2
- Change Engine Oil and Filter
Engine Oil Filter Qty: 1
Engine Oil Drain Plug Gasket Qty: 1
Engine Oil Qty: 6
- Replace Cabin Air Filter
Cabin Air Filter Qty: 1
- Replace Engine Air Filter
Air Filter Qty: 1

Inspection Items

- Inspect All Fluids and Correct Level
- Inspect Automatic Transmission Fluid Level & Condition
- Inspect Brake System, Friction Material and Hydraulic System.
- Inspect Cooling System, Hoses & Clamps
- Inspect CV Joints and Boots.
- Inspect Differential Fluid Level and Condition.
- Inspect Drive/Accessory Belt(s) and Tension.
- Inspect Fuel System
- Inspect Parking Brake Operation & Tension
- Inspect Steering & Suspension Components
- Inspect Wheel Bearings
- Replace Drive/Accessory Belt(s)
- Replace Spark Plugs
- Rotate Tires, Inspect Tire Wear, and Adjust Tire Pressure.

Predicted Repair

 0 Items

Based on our data, there are no predicted repairs within 12 months or 15,000 miles of your vehicle’s current mileage.
(To see updated Predicted Repairs, visit the Vehicle Care section in the app.)

Warranty Status

General

 Basic Warranty
Up to 36 months or 36,000 miles

Powertrain

 Emissions Warranty
Up to 96 months or 80,000 miles

 Powertrain Warranty
Up to 60 months or 60,000 miles

Technical Service Bulletins & Recalls

Dealer Recalls	17
NHTSA Safety Recalls	8
Technical Service Bulletins	271
